### 2 Bed + 1 Bath + 2 Living Areas

#### About Our Concept Home Plans

Our concept house plans were created as preliminary house plans for clients or builders.

Choose a plan and tweak it to your lifestyle or have us complete the plans as is. As an option, you can have your local home designer complete the full construction plans for you or we can offer you a low cost set of working drawings ready for construction.

This free pack will have the copyright watermark removed and you will have the full use of the plans.

#### Included In Our Concept Plans & Copyright Pack:

• Concept plan • Concept Elevations • Copyright to use plan • PDF so you can print off as many as you want

#### INCLUDED IN CONCEPT PLANS AND LICENCE PACK

#### DO YOU WANT MORE DETAILED PLANS ? Buy Our Construction Plans & Copyright Licence Pack

2. Full House Plan Set - \$895

Full set of construction plans for the home shown in the above images. These are ideal for builders as they are a full set of working drawings. The full house plan set is pre-drawn so no changes to the plan can be made. The Full House Plan Set is a discounted set of plans as the cost of drawing is shared over many buyers. If you want to customise the plan you would then need to choose the Custom Design Set as set out below, and we will make any changes to the plan prior to posting.

#### Includes:

- Floor plan with all dimensions nominated.
- Elevation Plans
- Electrical Plans
- Bracing Plans
- Tie Down Details
- Building Notes Page
- Sketch Plan
- 3D Render of Façade
- All the above plans are classified as "Full Working Drawings"
- A site plan can be provided if required for a cost of \$250.00.

Do you want modifications to this design Order our Custom Design Set - See below for more details Do you want modifications to this design

3. Custom Design Set – Free Quote

A Custom Design Set is a full set of construction plans as per the Full House Plan Set, however we also will make custom changes as per your requirements. When you request a change to a plan, example room sizes, window changes, layout changes etc our Custom Design Team need to redraw all the plans to reflect your changes. This is very labour intensive and time consuming as creating a full set of working drawings with roof changes and bracing changes can take 5-7 days labour. Even a small change like a window change will still need all the plans to be altered. However our discounted Custom Design Set is dramatically cheaper than most Design Companies

Includes: (Customised to your requirements)Floor plan with all dimensions nominated.
